DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 9-10, 16-18, 22-24, 26-34 and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Tinsley. Fig. 1 of Tinsley discloses an engine 10 comprising a housing 11 including a pair of end walls and a pair of intersecting parallel cylinder walls having inner wall surfaces that define first and second interconnected cylindrical cavities, the intersecting cylinder walls forming spaced-apart parallel first and second edges; first and second shafts 31, and first and second rotors secured to said first and second shafts for rotation in the respective cavities, the first and second rotors each having a plurality of radially extending lobes with outer ends, each lobe defining a combustion chamber that opens at the lobe outer end.

Allowable Subject Matter

3. Claims 8, 11-15, 19-21, 25 and 35-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
